DESCRIPTION OF DEPOSIT/DESCRIPTION DU GISEMENT

Map 1090 A indicates the country rock is granite and granodiorite of the Lower Cretaceous (?) Nelson intrusives, with small local patches of Lower Jurassic Rossland volcanics. The showings apparently consist of a quartz vein or veins carrying free gold; values were reported at \$20/ton in 1900.

HISTORY OF EXPLORATION AND DEVELOPMENT  
HISTORIQUE DE L'EXPLORATION ET DE LA MISE EN VALEUR

The property is located at the 4,700' elevation at the head of Champion Creek some 14 miles north-northeast of Trail.

Exploration and development activity began on Champion Creek in 1896. The Maud S claim (Lot 1442) was Crown-granted to B.A. True, C.B. Etnier and David Crombie in 1897. By 1900 the property comprised 5 claims, the Maud S, Yellow Jacket, Touch-me-not, Standard, Eric, and Syracuse, held by The Onondaga Mining Company, of Breckenridge Colorado. About 515' of development work was carried out during the year and a 10 stamp-mill installed. No report is known on further activity. The adjacent Touch-me-not (Lot 5202) and Yellow Jacket (Lot 5203) fractional claims were Crown-granted to Louis Will in 1902.

The property was acquired in 1981 by Pearson, Gallagher Ltd., of Nelson.
