

NAME OF PROPERTY VIC GROUP - LIVERPOOL  
(LAW'S CAMP, ST. GEORGE, ST. LAWRENCE)

LOCATION-Center of properties.

Radius of uncertainty: 100 m. Lat. 49°33' Long. 120°53'45"

Mining Division Similkameen District Yale

County Township or Parish

LotS 258 to 262; 756-760; 1188. Concession or Range

Sec. Tp. R.

OWNER OR OPERATOR AND ADDRESS

Victor Mining Corporation Ltd.

#### DESCRIPTION OF DEPOSIT

At this location, schists and limestones of the Nicola Group are intruded by dykes of feldspar porphyry and Eagle granodiorite. The mineralization occurs as replacement deposits which lie almost exclusively in limestone bands. Pyrrhotite, pyrite, galena, sphalerite and magnetite are found in a gangue of calcite and silica. Assays taken on the Liverpool claim run 0.14 oz./ton Au; 0.60 oz./ton Ag; and 1.31% Cu.

#### HISTORY OF EXPLORATION AND DEVELOPMENT

These properties are located between Skwum and Britton Creeks, in the old Law's Camp, about six miles west of Tulameen. The elevation ranges from 4,000 to 4,800 feet above sea level.

Mineralization was discovered in the area in 1901. Charles Law and William Anderson developed the St. George claim with 2 shafts and the St. Lawrence claim with three shafts, a trench and two adits. In 1916, they made a small shipment before they stopped working the claims.

To the south of these lie the Liverpool and other claims which were worked by Louis Marcotte. Numerous open cuts, shallow shafts and shoat adits were driven; on the Liverpool claim, a shaft was sunk 60 feet and an adit driven 110 feet. In 1927 Hope Range Copper, Limited, acquired these claims but only did a small amount of development work.

In 1960 The Consolidated Mining and Smelting Company of Canada Limited optioned 41 claims and held 13 others by record. They drilled thirteen holes totalling about 3,000 feet and conducted magnetometer and electromagnetic surveys. In 1967, Rayore Mines Ltd. conducted additional geophysical surveys.

Victor Mining Corporation Ltd. leased the Liverpool claim in 1972 and acquired the Vic Nos. 1-18 recorded claims covering the area around Murphy Lakes adjacent to the old claims of Law's camp. A geophysical survey was carried out.

## HISTORY OF PRODUCTION

In 1916, a shipment of 30 tons was made from the St. George and St. Lawrence claims. From this ore 30 oz. of gold, 466 oz. of silver and 869 lbs. of copper were recovered.
