BIBLIOGRAPHY

REMARKS

G. S. C., Ann. Rep. 1887-88, Vol. III, Pt. 2, p. 129 R.
 " Memoir No. 26, 1911, p. 135.

This creek is one of the larger tributaries of the Tulaameen, flowing in from the North about 3 mls. above Bear creek.

At its mouth it cuts through pyroxenite and peridotite.

"Very little mining has been done on the stream, and its gravel deposits are of small extent, especially in the lower parts. Above the canyon they are deeper and more wide-spread, but it was not ascertained whether or not they had ever been prospected. Near the mouth coarse gold and platinum were obtained."

(G.S.C., Memoir 26.)

*Tiffany Resources in 1987 held claims in
 this vicinity - geochronological soil survey.
