p. 67
1947: G.S.C. Memoirs 243, pp. 77 & 78

This claim is 2 miles from mouth of Sterling Creek
In all the work done so far the zone of oxidization has
not been penetrated.
In the deepest working a 23 ft. shaft the
sulphides are much oxidized.
The gold samples from this mine assays at $\frac{1}{4}$ to $\frac{1}{2}$
ounce of gold to a ton.
