MINES

~~1932 No. 736 pp. 50-53~~
~~1939 No. 805 pp. 49-60~~

The showings on the property extend from the beach for 1,500' to the main surface croppings and tunnel at about 300' elevation.

There was a shaft sunk some years ago on the vein about 300' below the face of the tunnel and which showed good ore and would indicate an ore body from there to the face of the tunnel.
