NAME OF PROPERTY DEMERARA, SEA

OBJECT LOCATED - centre of largest island of Pearse Islands.  
 UNCERTAINTY IN METRES 2,000. Lat. 50°34'50" Long. 126°52'10"  
 Mining Division Nanaimo District Rupert  
 County Township or Parish  
 Lot Concession or Range  
 Sec Tp. R.

OWNER OR OPERATOR AND ADDRESS

DESCRIPTION OF DEPOSIT  
 Very minor chalcopyrite, bornite, pyrite and pyrrhotite occur as disseminations and in amygdules in Upper Triassic Karmutsen flows and breccias. Narrow better grade areas, of very limited size, are associated with northwest and northeast-trending fracture and fault zones.

HISTORY OF EXPLORATION AND DEVELOPMENT  
 The property is located on the Pearse Islands, in Johnstone Strait, 2 miles east of Alert Bay.  
 In 1929 the Demerara group consisted of the three claims, River, Eagle and Copper Island, owned, respectively, by Maisonville, S.A. Husen and I.M. Stauffer. The main workings were open-cuts done on the Copper Island claim.  
 In 1972 the property consisting of the Sea 1 to 36 claims was held by W. Kuhn. Work done by El Paso Mining Company included surface geological mapping.
