CAM, DOC

OBJECT LOCATED - showing.

UNCERTAINTY IN METRES 250.

Lat. 50°13'30" Long. 126°02'40"

Mining Division Nanaimo District Rupert

County Township or Parish

Lot Concession or Range

Sec Tp. R.

OWNER OR OPERATOR AND ADDRESS

DESCRIPTION OF DEPOSIT

Mineralization consists of scattered showings of copper sulphides as seams and disseminations in fracture zones in andesite tuff and amygdaloidal andesite of the Upper Triassic Karmutsen Formation.

HISTORY OF EXPLORATION AND DEVELOPMENT

The property is located six miles south of Keta Lake, on Adam River, at an elevation of 2,500 feet.

The property in 1969 consists of 40 claims, the Cam 3 to 10, 15 to 24, 30 to 41, and Doc 1 to 10, owned by Adam River Mining Ltd. The claims were optioned in that year to Rip Van Mining Ltd. A photogrammetric map was made and the surface workings were mapped. A helicopter magnetometer survey was flown over 60 line-miles, an induced polarization survey was run over 10 line-miles, and 350 soil samples were taken for analysis. Fifteen pits were dug and three holes totalling 1,500 feet were diamond drilled.

In 1970 the property was operated by El Paso Mining and Milling Company. The claims, topography and geology were mapped. A magnetometer survey of 23.4 line-miles and a geochemical survey of 2,480 samples were carried out over the Cam claims. Four holes totalling 800 feet were diamond drilled.
