

NAME OF PROPERTY

DRY HILL

OBJECT LOCATED - showing.

UNCERTAINTY IN METRES 250. Lat. 50°21'10" Long. 127°14'05"

Mining Division Nanaimo District Rupert

County Township or Parish

Lot 1548 Concession or Range

Sec Tp. R.

OWNER OR OPERATOR AND ADDRESS

DESCRIPTION OF DEPOSIT

The area is underlain by Triassic Quatsino limestone. A pronounced shear zone strikes north 50 degrees west and dips at 45 degrees to the northeast, cutting the limestone. The hanging-wall is well defined and within 5 feet of it cobaltite, associated with calcite, and a little garnet and chalcopryite, is disseminated rather sparingly and weathers to form the pink cobalt bloom erythrite. The limestone below the shear zone is much silicified and garnet, epidote, serpentine, pyrite, and a little graphite occur rather sparingly in it.

Associated minerals or products of value - Cobalt.

HISTORY OF EXPLORATION AND DEVELOPMENT

The showing is located at an elevation of 900 feet, $\frac{1}{2}$ mile west of Benson River.

The Dry Hill claim (Lot 1548) was Crown-granted in 1922 to Laura Gray and Mary Gibbens.

In 1928 Quatsino Copper-Gold Mines, Limited, acquired the claim as part of the Merry Widow and Independent groups. (See 92 L/6, FE 1).
