HISTORY OF EXPLORATION AND DEVELOPMENT

The property is located 3 to 4 miles southeast of Pondosy Bay, Eutsuk Lake.

Kennco Explorations (Western), Limited, located the Pondosy group of 70 claims on the showings in 1965. Diamond drilling was reported in 236 feet of AXT holes. The claims subsequently lapsed.

The Pond 1-52 claims covering the same showings were held in 1971 under the name Taurus Resources Syndicate. A stream geochemical survey was carried out during the year.
