

## NAME OF PROPERTY

GEL

OBJECT LOCATED - Common boundary GEL 19-22.

UNCERTAINTY IN METRES 150. Lat. 53°56'20" Long. 124°48'25"

Mining Division **Omineca** District **Range 4 Coast**

County Township or Parish

Lot ~~XXXXXXXXXX~~ Range

Sec Tp. R.

## OWNER OR OPERATOR AND ADDRESS

## DESCRIPTION OF DEPOSIT

Pyrite with minor molybdenite occurs as smears along joint planes, and as finely disseminated flakes, in irregular quartz veinlets. The quartz veinlets occur in highly altered zones of Casey granite and also in volcanic inclusions.

## HISTORY OF EXPLORATION AND DEVELOPMENT

The property is located south of Nithi Mountain, approximately  $7\frac{1}{2}$  miles southeast of Francois Lake.

The 40 claim group was owned by Amax Exploration Inc. in 1967. Work on the property included geological, geo-physical and geochemical surveys. One hundred trenches totalling 9,000 lineal feet were also bulldozed.
