

NAME OF PROPERTY

OAKLA

OBJECT LOCATED -showing.

UNCERTAINTY IN METERS 4,000. Lat. 54°05' Long. 125°45'

Mining Division **Onineca** District **Range 5 Coast**

County Township or Parish

Lot Concession or Range

Sec Tp. R.

OWNER OR OPERATOR AND ADDRESS

DESCRIPTION OF DEPOSIT

Several small fractures filled with gouge and a little quartz occur in a greyish-green andesite. Pyrite occurs in the fractures and the adjacent andesite. Four samples were taken from different showings which were representative of from 2 to 6 feet of mineralized material. Only one of these showed appreciable values, namely 0.54 ounce gold per ton from the most westerly showing.

Associated minerals or products of value

HISTORY OF EXPLORATION AND DEVELOPMENT

The property is said to be located 1 mile north of the Collier farm and 3 miles from the Francois Lake ferry landing.

The Oakla group of 5 claims was owned in 1923 by Mrs. O. Collier, George Culp, E.M. Dotson, and Gladys Collier; open cutting was reported.

Mineral Resources Branch, Department of Energy, Mines and Resources, Ottawa.
