OWNER OR OPERATOR AND ADDRESS

DESCRIPTION OF DEPOSIT

Chalcopyrite found in sheared granite.

HISTORY OF EXPLORATION AND DEVELOPMENT

The property is located at about the 5,000 foot elevation, 13 miles north-northeast of Mount Albert Dease, approximately 100 miles southeast of Dease Lake.

The West 1-14 claims were held in 1970 by El Paso Mining and Milling Company. Work during the year included geological mapping, an induced potential survey over 5.68 line-miles, and a geochemical survey over the West 3-10 claims. In 1972 El Paso owned the West 1-32, Mack 7-20 and Mack 1 Fraction claims and held under option from Plateau Minerals Limited the Earl 1-8 and Earl 1-3 Fractions. During 1972 a reconnaissance geochemical silt survey (67 samples) was carried out over all claims.
