

NAME OF PROPERTY TOGO (A.J.) (PRINCE)

OBJECT LOCATED-showing.

UNCERTAINTY IN METERS 300. Lat. 52°18'00" Long. 131°14'05"

Mining Division Skeena District Queen Charlotte

County Township or Parish

Lot Concession or Range

Sec Tp. R.

OWNER OR OPERATOR AND ADDRESS

## DESCRIPTION OF DEPOSIT

The magnetite replacement zone cuts the greenstone of the Kunga Formation. The magnetite occurs on surface as an elongated, oval outline striking east-southeast for a length of 60 feet, with a maximum width of 12 feet. The body contains much garnet, up to 50% of the rock, stringers of coarsely crystalline calcite and quartz, and disseminated chalcopyrite. A sample from a 7-foot wide section of the replacement zone assayed 3 per cent copper.

Associated minerals or products of value - Iron.

## HISTORY OF EXPLORATION AND DEVELOPMENT

The property is located west of the entrance to Harriet Harbour, between sea level and 570 feet elevation, about 700 yards from the beach.

In 1908 three claims were surveyed by owner L.T. Watson.

On Sept. 20, 1911, the Togo claim (Lot 140), was Crown-granted to Benjamin Metcalfe.

In 1914 a 16-foot shaft was sunk on a 7-foot wide section of the replacement zone by Daykin and Metcalfe, who were the owners at that time.

Mineral Resources Branch, Department of Energy, Mines and Resources, Ottawa.
