BEANSTOCK

OBJECT LOCATED -showing at 2,400' elevation.

UNCERTAINTY IN METERS 300. Lat. 54°33'35" Long. 128°24'30"

Mining Division **Omineca** District **Range 5 Coast**

County Township or Parish

Lot Concession or Range

Sec Tp. R.

OWNER OR OPERATOR AND ADDRESS

DESCRIPTION OF DEPOSIT

A quartz vein sparsely mineralized with pyrite has been traced by five pits in the overburden for 225 feet. The vein has an average width of 30 inches, strikes south 30 degrees east, and dips 35 degrees northeast. It fills a fissure in andesite and just above 2,450 feet it pinches out at the contact of the volcanic rocks with a small boss of granodiorite. A 15-inch channel sample taken across the vein in the more northerly pit 30 feet northwest of the discovery post assayed only a trace of silver and no gold. A 40-inch channel sample taken across the widest part of the vein, 30 feet southeast of the discovery post, assayed: gold, 0.04 ounce to the ton; silver, a trace.

This vein and (or) other veins have been traced northwest along the same strike for about 1,000 feet down the mountain slope. Widely separated pits expose quartz veins at six different places between elevations of 2,375 and 1,600 feet. The lowest vein examined is at an elevation of 1,600 feet across a small ravine. It strikes north and dips 30 degrees east, is enclosed in volcanic rocks, and consists of alternate bands of andesite and quartz over a width of 4 feet. The main body of the granodiorite that comprises the lower west slope of the mountain is a short distance below the vein.

Associated minerals or products of value

HISTORY OF EXPLORATION AND DEVELOPMENT

The property is located at the 2,400 foot elevation on the west side of Kleanza Mountain, 6 miles northeast of Terrace.

The showings were discovered and staked by George Little and Arthur Clore, of Terrace, in 1935. Trenching was reported.

Kleanza Mines Ltd acquired this ground in 1966 as part of the 120 claim Croesus group. Geophysical and geochemical surveys were carried out over the larger property prior to 1970 (see adjacent Silver Bow property - AG 2).
