The claims are located at about the 5,000 foot elevation on the north side of the glacier at the head of the Marmot River, 6 $\frac{1}{2}$  miles southeast of Stewart.

The 8 claim Glacier Girl group was staked by George Bacon & associates in 1927. The Glacier Girl Mining Company, Limited was formed in March 1928 to develop the group. Later in the year the property was optioned to Marmot Metals Mining Company, Limited. Some surface stripping was done on the fracture zones but the values were found to be lenticular and restricted; the option was apparently dropped. The Glacier Girl Mining Company charter was surrendered in 1931.

OWNER OR OPERATOR/PROPRIÉTAIRE OU EXPLOITANT

DESCRIPTION OF DEPOSIT/DESCRIPTION DU GISEMENT

An iron stained bluff is mineralized to a slight extent with pyrrhotite, but the economic possibilities appear to be limited to fracture zones along which the pyrrhotite has been concentrated. Two fracture zones up to 5 feet wide have been explored by open cuts and carry locally values in silver, gold and copper. A sample across 5 feet in one of the open cuts assayed: Gold, 0.4 ounce a ton; silver, 20 ounces a ton; copper, 0.2%.

Associated minerals or products  
Minéraux ou produits associés

- Gold, copper.
