INDEX

to

ANNUAL REPORTS

of the

MINISTER OF MINES

of the Province of

BRITISH COLUMBIA

For the Years 1874 to 1936, inclusive

Compiled by

H. T. NATION

VICTORIA, B.C. :

Printed by CHARLES F. BANFIELD, Printer to the King's Most Excellent Majesty.
1938.

NOTE.

This is the first General Index to the Annual Reports of the Minister of Mines of the Province of British Columbia. The Index covers the complete series from 1874 to 1936, inclusive.

It has been prepared after a careful card index was made to include every subject considered of sufficient importance to those seeking information from the Reports.

Cross indexing has been carried on where subjects have appeared under different forms, such as changes in names of mineral claims, mining companies, and geographical terms. Asterisks have been attached to references which are of particular interest in various cases.

Geographical terms have been spelled in accordance with the usage of the Geographic Board of Canada.

Some difficulty was found in the correlation of personal names owing to lack of initials, misspelling in various Reports, and changes in the field of operations by persons concerned. Adjustments in these and names of claims, mining companies, and geographical names have been made through information obtained from members of the Department.

Names of Mining Divisions have been added in brackets after claim names to distinguish the latter when several are similar. Old names such as Cassiar, East and West Kootenay, Cariboo, Okanagan are not used, as the present Mining Divisions supersede these.
