General Terms & Conditions for Geophysical Data

The utility of these data will be enhanced by reprocessing, application of interpretive techniques, and appropriate presentation. Please consult the appropriate contact below for more information.

Disclaimer: Although every attempt has been made to ensure that these data are as accurate as possible, they are provided on an 'as is' basis. Natural Resources Canada does not assume any liability deemed to have been caused directly or indirectly by these data.

Copyright: The data provided are copyright of Her Majesty the Queen in Right of Canada, 2004.

Data Usage Conditions: These data have been provided with the intent that they be readily available for personal and public non-commercial use and may be reproduced, in part or in whole and by any means, without charge or further permission from Natural Resources Canada. However, please ensure the following:

1. These terms and conditions remain with the data at all times.
2. The citation appropriate to the data type appears on any publication of the data (see below).
3. Notification of any publication of the data is provided to the appropriate contact (see below).
