## REMARKS

Bur. of Mines, B. C., Rep. 1911, p. 186.

"This creek produced a large amount of placer platinum in the early days, the shallow ground only being then worked."  
(B.C.Rep.1911.)

Downie, W.; Report on Gold Mining Operations  
in the Similkameen; The British Columbia  
Gazette, August 12<sup>th</sup>, 1886  
(p. 281)

Cedar Cr. (on south side of Tulameen River about  
1/2 mile west of Tulameen) - good small pieces for  
two or three companies for a while; others made  
nothing and gave it up.

Slate cr. is considered the best on the Tulameen,  
many claims paying 4 and 5 a day heavy gold.  
A nugget weighing  $26\frac{1}{2}$  dollars was taken  
from one of the claims a few days ago.

## REMARKS

Bur. of Mines, B. C., Ann. Rep. 1897, p. 740.  
" " " " Ann. Rep. 1900, p. 900.

This Company had four leaseholds near the junction of Slate Creek and the Tulameen river.

"Numerous holes were made in the face of the bench fronting on the river, and at last an immense body of auriferous gravel was found, yielding excellent prospects in gold and fine platinum. Steps were immediately taken for working the property by hydraulic power."  
(B.C.Rep.,1899.)

"A large body of gravel, which yields good prospects in gold and platinum, indicates the existence of an ancient channel of Slate Creek, which formerly found its outlet into the Tulameen river at this point, a considerable distance below its present mouth."  
(B.C.Rep.,1900.)
