REMARKS

Bur. of Mines, B. C., Ann. Rep. 1916, p. 261.
" " " " Ann. Rep. 1917, p. 216.

During 1916, Mr. Schubert "washed 2,000 yards of pay-dirt, averaging 50 cents per yard, besides a lot of outside work, which will enable him to work the property to advantage next season." (B.C.Rep.,1916.) Mr. Schubert reported a cheap-up of 3 oz. platinum and 3 oz. of gold for 1917. He was unable to do much work on his claims, as the water gave out early in the season. (B.C.Rep.,1917.)

In addition to the native gold and platinum which is carried in the gravel of the Tulameen, there are found large quantities of black sand which varies in value from \$60. to \$300. per ton in unconcentrated state and the proportion of black sand to a yard of gravel also varies but a fair average would be 40 lbs. per yard.
