REMARKS

Bur. of Mines, B. C., Ann. Rep. 1915, p. 366.

These hydraulic leases are situated on Tulameen river, about 4 miles below the mouth of Granite Creek.

Water was brought in at an elevation of 300 ft. above the old channel, from Four-Mile and Six-Mile Creeks, by means of the flume.

"It is expected that both placer gold and platinum will be recovered here in payable quantities when sufficient water shall be obtainable for hydraulicking."
(B.C.Rep.,1915.)
