 NEAREST POST OFFICE  
 LOCATION 50° 120° SW.  
 Mining Division Lillooet District  
 County Township or Parish  
 19 mi. SE of Lillooet on Lytton Highway 1/4 mi off road.  
 Concession or Range, and Lot  
 L.S. Sec. Group of claims. R.

OWNERS OR OPERATORS AND ADDRESS  
 1951 Geo. Powell, Lillooet B.C.

DESCRIPTION OF DEPOSIT  
 Ore or substance Stibnite  
 Character of Deposit Quartz veins few inches to seven ft.  
 Country Rock  
 Associated minerals of value Gold.

DEVELOPMENT WORK  
 Surface exploration vein uncovered for over 750 ft. where it enters Gravel Bank.  
 Drift tunnel of 20 ft. - samples assayed.  
 Equipped  
 Not equipped

PRODUCTION  
 Material shipped  
 Date of first shipment

TRANSPORTATION  
 Shipping point Lytton B.C. between Lillooet and Lytton  
 Distance from 1/4 mi.

### Antimony

A promising antimony, gold deposit is the Stibnite group of claims owned by George Powell of Lillooet, B.C. This property is located 19 miles from Lillooet and one-quarter mile from the main road to Lytton. According to Mr. Powell the antimony occurs in a quartz vein with about ten inches of pure stibnite on one wall. There is said to be a diorite hanging-wall and a sedimentary footwall. The quartz vein is said to vary from a few inches to 7 ft. in width and has been uncovered for a distance of 750 ft. where it enters gravel banks. Free gold is visible in places and some assays have run \$36 in this metal. A drift tunnel 20 ft. in length was driven on the vein from which a 500-lb. sample was taken across a 3-ft. width. This assayed 42 per cent antimony. Selected ore shipment to Derby & Co. of London ran 53.04 per cent antimony.
