DESCRIPTION OF DEPOSIT/DESCRIPTION DU GISEMENT

The country rock is granodiorite of the Coast Range intrusives. A well defined vein 1 to 4 feet wide has been traced for about 600 feet. Where exposed in the adit, over widths of 1 to 2 feet on the footwall side, the vein assayed 4 to \$24 in gold, silver, and copper at 1910 prices; the balance of the width of the adit is mineralized throughout, but of low values.

HISTORY OF EXPLORATION AND DEVELOPMENT

HISTORIQUE DE L'EXPLORATION ET DE LA MISE EN VALEUR

This property is located at about the 200 foot elevation on the east side of the Bear River, about 1 mile northeast of Stewart.

The Copper Cliff Mines, Limited, formed in August 1910, held 3 claims, the Copper Cliff, Copper Cliff No. 1, and Copper Cliff No. 2. At about 200 feet above the Bear River an adit was driven 35 feet on the vein, and then a crosscut to the right or hanging wall side from the face for 25 feet. No further work was reported. The company charter was surrendered in 1919.

~~Copper Cliff Mines L amalgamated with others December 1979 to form Dolly Varden Minerals Inc.~~
