Mines, mine development, selected proposed mines, and selected exploration projects in British Columbia, 2025

Gordon Clarke, Bruce Northcote, Nate Corcoran, Cary Pothorin, Hassan Heidarian and Kirk Hancock

Project status (coloured by project type)

- Operating mine*
- Mine in care and maintenance**
- Specialty mill
- Mine development
- Proposed mine
- Exploration project
- Temporary shutdown

*Operated in or for a portion of 2025
**Operated within the last 3 years

Project type

- Coal (metallurgical)
- Precious metals
- Precious and base metals
- Base metals
- Base and precious metals
- Rare earth elements
- Industrial minerals
- Aggregates
- Precious and semi-precious gemstones
- Slag
- Other

Geology

Post-accretionary assemblages

- Intrusive rocks
- Supracrustal rocks
- Neogene to Quaternary volcanic rocks

Terranes

- Outboard
- Alexander
- Wrangellia
- Cache Creek and affiliates
- Slide Mountain
- Stikinia
- Quesnellia
- Yukon-Tanana

Ancestral North America

- Cassiar
- Deep-water basin strata
- Platformal strata
- Craton and cover
