Notes

This map shows the coal, industrial mineral and metal mines, and selected exploration projects of British Columbia that were active in 2013. Some sites were active for only part of 2013. Large exporting aggregate producers are shown but not the many aggregate quarries serving local markets around the Province. Not all exploration projects in the Province are shown on this map.

Information provided by the Province's Regional Geologists: Jim Britton, Paul Jago, Fiona Katay, Jeff Kyba, and Bruce Northcote. Information compiled by Bruce Madu and Gabriel Li of the British Columbia Geological Survey.
